**AC-808**  
Towel bracket  
(61 cms)

MRP ₹ 3500

# Smart Tips

ESS ESS constantly strives to interact with consumers and make its products consumer-friendly. The company's trained staff and executives maintain a direct interface with consumers, educating them about the product quality, convenience and maintenance. Ess Ess also believes that consumers must get the best out of its products. Hence it has evolved a set of consumer guidelines, which if followed ensure optimum and trouble-free performance with enhanced durability of Ess Ess products for years to come.

The guidelines are:

## DURING INSTALLATION

- Use 25 mm pipeline instead of 20 mm to ensure better flow of water. Lay the pipelines straight and vertical as far as possible.
- More than required number of bends throttle the pressure of water. Keep the number of bends in the pipelines to a minimum. All the supply lines must have vent pipes which helps in giving a smooth flow of water from the fittings.
- Center to center distance of pipe fitting for Hot & Cold inlet for all types of wall mounted mixtures should be maintained at 165 mm by which any of our wall mixers can be easily installed without any problem.
- Place the outlet point in the overhead tank atleast 2.5 cm above the ground level of the tank. This prevents the flow of foreign particles, sand, etc. along with water supply into the fittings avoiding the possible damage to the working parts.

## POST INSTALLATION

- Cover the taps polypack before or after their installation till they are put to actual use to protect the fine finish of fittings from dirt, stains and other damages.
- Do no use harsh cleaning agents containing abrasives and acids. Instead use a soft sponge or wet cloth with soapy water / diluted vinegar to protect the colour finish.
- Clean the aerators provided in the items at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse thoroughly with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign

An ISO 9001-2008  
CERTIFIED COMPANY

ESS ESS Bath Fitting Pvt. Ltd. is now a certified  
ISO 9001-2008 company. The certification was  
given by The Certification Body of  
TUV Rheinland India Pvt. Ltd.

### Green Building Concept

Considering the Green Building Awareness and Promotion's Ess Ess is happy to announce after all our products (Except concealed, flush valves, divertors & stop cocks) now come with following Flow Controllers.

**4L/min, 6L/min, 8L/min, 10L/min & 12L/min**

To place order the product with these flow rates all you need to do is to add the required flow rate code to the desired Product, For Example, if you want to order Croma Pillar cock with flow rate of 6L/min the code will be C201-6L Similarly for 10L/min will be C201-10L and so on

### EXCLUSIONS

- Single Lever Divertors and 4-Way Divertors are not supplied with any flow regulator, because these are meant for supply to Overhead Showers or Spouts. Regulators for Overhead Showers and Spouts are available separately.
- Similarly Angle Cocks and Concealed Stop Cocks are meant for supply to Basin Mixers/Geysers/Pipeline and Regulator is provided at outlet point.

### PRICING

Additional Cost to be Charged Extra Rs.150/- Per Product

TISI CERTIFIED

# Warranty Details

(For complete terms & conditions on warranty, Pls refer to Warranty Manual shared on website or visit an Ess Ess by Asian Paints dealer)

Asian Paints Limited ('Company') faucets are warranted to be free of defects in the material and workmanship for the period mentioned below, commencing from the date of sale of Asian Paints Limited faucets to product user.

**FOR WARRANTY TO BE VALID,  
PLS REGISTER YOUR WARRANTY  
BY CONTACTING 1800-266-2079  
(within 15 days of purchase)**

Warranty Chart		
Products	Residential Use	Commercial Use
Faucets	10 years	7 years
Showers & Accessories*	3 years	2 years
Concealed Cisterns	2 years	2 years
Sensors & Electrical Equipment	1 year	1 year

\*Includes products covered under "Essentials" in the product catalogue.

The warranty period is not renewed or extended on supply of the spare parts during the warranty. The Company will at sole discretion, repair or replace any defective component or part of product with or without cost.

- The warranty shall commence on the date that the consumer telephonically lodges his warranty with the Company by contacting 1800-266-2079 and furnishing all the purchase and personal details requested by the Company ("the Commencement Date"), within 15 days of purchase
- The Company or its Authorized Service Franchisee solely can service/repair the Product.
- The warranty becomes null and void if installation is not done by qualified and experienced technician and/or as per the installation procedure laid down by the Company.
- Hoses, rubber parts, plastic parts and consumable are not included in warranty. In case of defects on such products arising prior to installation, the company will decide on repair / replacement after inspection.
- This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
- The warranty will cover only manufacturing defects of the product and will not cover any defects arising out of factors out of control of the Company like insufficient water pressure, high water impurities/hardness, breakage of parts due to excessive force etc. In no event shall the liability of the Company India exceed the purchase price of the Product. **Improper care and cleaning will void the warranty.**
